

Tisua Line

A special LED light.

Energy saving, atmospheric and pretty.

SIGLLICHT

Die Münchner Lichtmanufaktur

Puristic

LIGHT:DESIGN

Simple design with great effects

The puristic design in combination with the special LED light makes all lighting products of Tisua Line absolutely trendy. It increases positive atmosphere in every room and home. Convince yourself of this design, which is totally unique.

LED light efficient and with great color rendering index.

For Tisua Line lighting products sustainable LED technology has been turned into perfection. With 6/7 less power consumption than former lighting, LED light is way more economical and sustained. In order you get the best and most pretty light in all your rooms, we just use LEDs with a high color rendering index >90.

Light is just a question of settings

Each single element of most of the lightning product is separately moveable, so that light can be costumized individually to you and your room.

Made out of one single piece for best quality

These high-quality lights are produced and manufactured out one piece of most solid aluminium. Therefore we have our own factory "Münchner Manufaktur" in Munich.

Refined by a luxurious finishing touch

The aluminium surface of Tisua Line lights is smooth and silky and covered with a luxurious finishing. If required, every light is available with other surfaces as well.

For a quarter of a century

Each little LED is connected to the element in a special way, so heat can be conducted and the product works longer. Every LED has a functional life of 25,000 hours, 25 years of perfect light in your room. Subsequently we can replace all LEDs for you, if required. One advantage of "Münchner Lichtmanufaktur Sigllicht". Of cause you will get a 5 year guarantee for all our Tisua Line products.

LIGHT:AURA page 4-27

Better light with our integrated LightModule

With the integrated LightModule you can change brightness and color individually right on every light. You can decide between two different color. Soft white light and colorful ambience-light for a nice atmosphere:

The concept of Licht:Aura light

Emotions change, so do the requirements of light in rooms or surroundings. Light affects our well-being. With our Tisua Line collection we want to give you the opportunity to choose the atmosphere of light you need. Bright and warm white light for rainy days and colorful, emotional light for special times.

Light gives you an other impression of a room. It changes atmosphere and our feeling for a place like no other item does. With Tisua Line you have the opportunity to choose between indirect light, which makes your room more bright and welcome, or direct light, with which you can focus on the area you are using at this moment. Bright for reading and dimmed for a more cozy atmosphere.

You can get all Licht:Aura lights of the Tisua Line collection with colorful ambiance-light or variable white light.

Light setting with LightModule ...

Colorful ambiance-light

In order to get the best Licht:Aura, you can create different light atmospheres in your room using the great color selection ambiance-light brings with it! Bright white light serves as best downwards lighting. For light around you in your room, you can set up unique surroundings with peerless color variety: Azure or ruby or sunnyyellow or ... be surprised by the huge number of options!

Change room atmosphere with LightModule

- 1 Infinitely variably dim brightness of brilliant white light (downwards)
- 2 Choose different nuances of your desired color for room lighting (upwards)
- 3 Infinitely variably dim brightness of color light (upwards)
- 4 Activate the most recently saved light situations

Colorful ambiance light optionally controllable with phone or tablet

Trend-setting

LIGHT:TECHNOLOGY

... or optionally controllable with a bluetooth chip

Variable white light

In order to have best light for every necessity or time of the day, you can set illumination individually: cozy white light – like light from a light bulb – for comfortable and cozy ambiance (e.g. in the evening) or bright white light – comparable with light of a halogen lights – creating an active but practically illumination (e.g. in the morning or during the day). In doing so, you can separately dim direct light (downwards) and room light (upwards).

Choose perfect light with LightModule

- 1 Infinitely variably dim brightness for lighting downwards
- 2 Choose intensity of white light (cozy or bright)
- 3 Infinitely variably dim brightness for room light upwards
- 4 Press function key for shades of white: once for adjusting downwards shades if white, press twice for adjusting upwards shades of white. Double click for joint setting of both

Change intensity of white light with Light-Module

LIGHT:AURA

DOLORINUA DOLORIMUA

Puristic LICHT:DESIGN

Gives soul to a room.

Light is a medium to create a harmonious mood. A room can be seen as a human's body. With light you give life to the anatomy of a body and the lamp is the heartbeat. You don't recognize it every second but it is always there and influences your well-being.

Discover DOLORIMUA and DOLORINUA! Lights which fill every room with life using their special LICHT:AURA.

DOLORINUA

DOLORINUA: Winner of the Bavarian State Award for special design and technical achievements in craftsmanship 2013

Perfect for a table length up to 1.5 meters

DOLORIMUA

Perfect for a table length up to 2.0 meters

Perfect for a table length of 2.0 meters or more, suitable for tables up to 3.0 meters

Choose the extraordinary. With DOLORINUA and DOLORIMUA.

A lighting collection where function and design goes hand in hand. Discover with DOLORINUA- and DOLORIMUA-collection a perfect light for your individual lighting concept. Whether DOLORINUA with closed metal surface or DOLORIMUA with a half closed metal surface, you can always be sure to get an extraordinary lighting concept.

The right one for every table and mounting.

The lights are available in three different sizes and you can adjust their height without cutting cables. The ceiling bracket is suitable for straight and arched ceilings and can be delivered without transverse rod, if required. In addition an installation without ceiling bracket is possible, if the power supply can be mounted somewhere else. Contact us, if you wish individual advice on how to mount the light in your room.

LightModule

All lights are equipped with LightModule and can optionally be ordered with a bluetooth chip to control by iPhone or Android.

A game with elements

All single elements are adjustable up- and downwards, so that lighting can be aligned individually.

DOLORINUA

With its closed metal surface it gives a perfect straight light, which can be used to focus on tables or ceilings.

DOLORIMUA

Elements with a half-closed metal surface shine on all sides, so light can be spread more widely.

Delivery

All lights are delivered with an operation unit (integrated for 110 V-230 V) and a 2 m cable, ready to be installed in rooms up to 3m height. They can be aligned at perfect table-light-height of 1.5m above the floor.

Up on request also available as black or white model and with a longer cable.

LIGHT:WHITE

LED LIGHT AS PRETTY AS HALOGEN LIGHT

LIGHT AND DESIGN perfectly shaped

White light makes a room brighter and experienceable.

White light is the most natural light a humans eye is knows. It is most pretty if it has the same light radiation as sunlight or halogen light. LEDs used by us are not only bright and have a long life, they also have a very high light quality so you can feel really comfortable while using them.

Delivery

Every light is delivered ready for installation and including an operational unit (integrated for 110 V-230 V).

On demand they are also available as a special version with an external operational unit. Surface in black or white up on request.

SigLicht for highest quality.

Münchner Lichtmanufaktur

The artisanal products, the customized design and the innovative technology are in the main focus at SigLicht. Therefore our lights have been made in our "Münchner Manufaktur" with care and out of the greatest material for over 30 years now. With such wide experience we are in a position we meet high quality requirements and by personal consultancy to take care of the special wishes our clients may have. Interested in information? You can find our other products at www.siglicht.de or www.dolori.de

Klaus Sigl
Owner and manager of
SigLicht GmbH

“Every lighting producer wishes his designs to meet current trends. The most important skill for success though, lies in combining trends, timeless elements and latest technology. I think we have especially well succeeded in this with our Tisua Line collection. Perfectly shaped lights following the trend of individual lighting mood, implemented in a timeless classic and elegant design and with the right amount of emotions for light and its power.”

Collection

Except for Tisua Line kollektion we also produce the following collections.

LOOP LED lights
for purists

AXANA LINE
LED and low voltage halogen system

JAMATON LINE
single lights

MANUFAKTORY

Explore fascination light live

In our modern showroom in Munich you can discover our lights and get impressed by their effect on room and human. We also show you all functions with pleasure and give you an individual advice concerning light setting in our room.
